Overview

Welcome to NAB Prefab Houses, your gateway to innovative and versatile space solutions. With a passion for reimagining the way we live, work, and create, Our range of product can be customized to suit all requirements and construction and housing needs from offices, labour camps, schools, commercial work modules to even residential villas etc.

With the extensive expansion of the UAE through the vision of the ruling family, the need for dynamic production and quality assurance remains a pivotal focal issue for our company, developing new and robust design innovations to cater for the growing needs of our clients.

Objectives

Innovation and Efficiency

Develop and implement cutting-edge prefabrication technologies to streamline the construction process, ensuring our prefabricated houses are built with utmost efficiency and precision.

Sustainability Focus

Prioritize environmentally friendly materials and construction practices to create prefabricated houses that minimize ecological impact, promoting sustainable and eco-conscious living solutions.

Customization and Quality

Provide a diverse range of customizable designs and floor plans while maintaining the highest standards of quality in construction materials and workmanship, ensuring our prefabricated houses meet and exceed customer expectations.

Global Accessibility

Expand market reach by establishing a robust distribution network, enabling easy access to our prefabricated houses worldwide, and contributing to the global housing solutions, catering to diverse needs and geographical locations.

Values

Our Mission

We strive to provide innovative, customizable, and sustainable portable cabin solutions that meet diverse needs.

Our vision

We strive to provide innovative, customizable, and sustainable portable cabin solutions that meet diverse needs.

Why Choose Us?

Our portfolio showcases an array of designs that harmonize functionality and aesthetics. From compact office setups to cozy living spaces, each Porta Cabin is a testament to our dedication to thoughtful design.

End-to-End Solutions

Porta Cabins provides end-to-end portable solutions, encompassing design, fabrication, installation, and customization, to meet your unique requirements

Customer-centric Approach

We view you as a valued partner, prioritizing lasting relationships through a commitment to transparency, open communication, and on-time delivery

Customization

Our dedicated team of skilled professionals works closely with you, transforming your vision into personalized solutions.

Sustainability

We are dedicated to constructing more than just buildings.

Services

01. Office Cabins

Efficient and customizable prefab office spaces for a productive work environment.

02. Security Cabins

Compact and secure prefab cabins ensuring personnel and asset safety.

03. Modified Containers

Versatile and cost-effective modified containers for flexible space solutions.

04. Prefab Majlis & Kitchen Units

Stylish prefab living spaces and kitchens enhancing comfort in prefab homes.

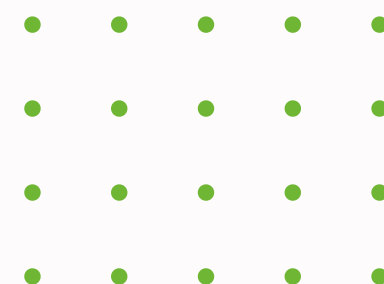

Market

NAB Prefab Houses holds the dominant position in the UAE's prefabricated building market among all cabin manufacturers. Additionally, NAB Portacabin has been actively engaged in cross-border ventures, contributing to the growth of emerging economies within the GCC region.

Our cabins are built to local legislation for structure, local climatic protection, fire safety, access and environmental concerns. As with all our products we use only the best components with international safety ratings to ensure our cabins exceed even the highest inspection standards.

85%

Success Rate

Process

01

The home's design is created based on the owner's preferences and needs, incorporating the chosen prefab method.

Components are manufactured in a controlled factory environment, benefiting from efficient assembly line processes.

02

03

Completed components are transported to the building site, often requiring careful logistics planning.

The components are assembled and connected on-site, which typically involves crane operations and skilled construction workers.

04

05

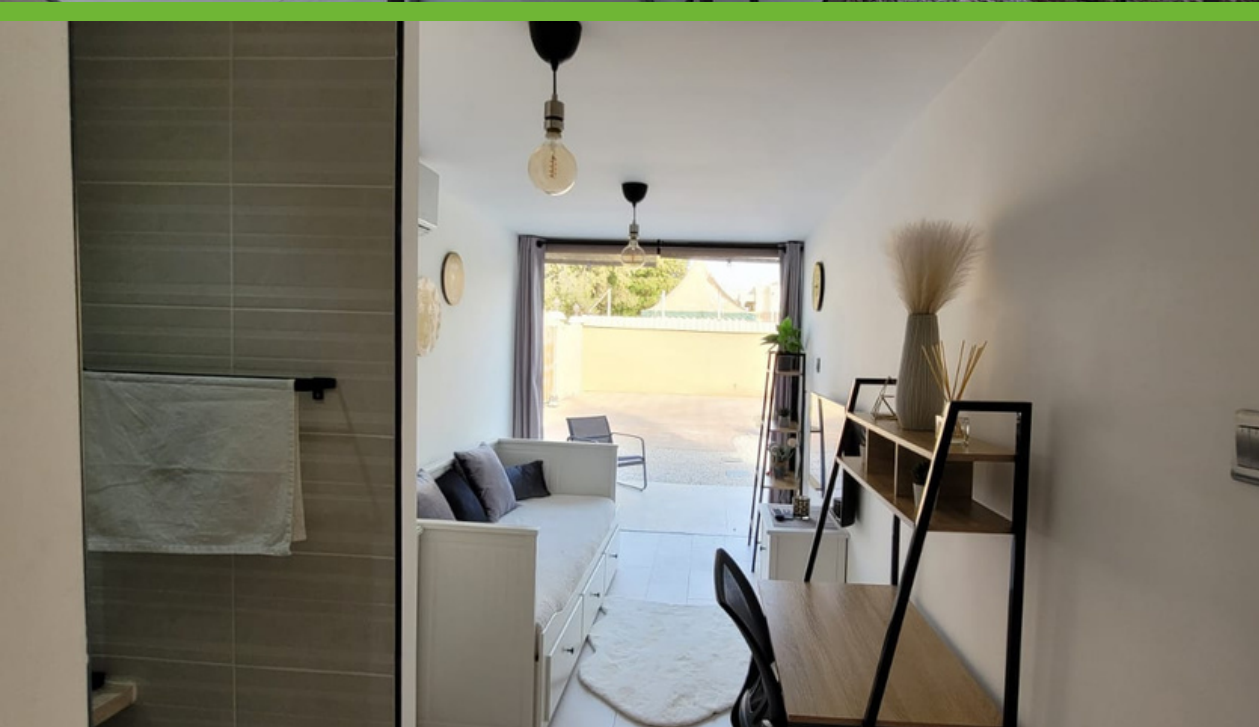

Once the structure is assembled, interior and exterior finishes are added, including plumbing, electrical systems, and interior fixtures.
